## **Making an On-Line Credit Card Payment**

- Go to [www.neurocareusa.com](http://www.neurocareusa.com) (our practice home page)
- Click on the following link (it is in the third column at the top of the page above the link “Dr. Winer's curriculum vita”)

[Information on my Philadelphia practice of neurology, psychiatry, neuropsychiatry, psychopharmacology, Jungian psychology \(Jung\), & medicine](#)

- Click on the following link (it is in the second column just to the right of “what's on this website”)

[Make a credit card payment to Dr. Winer by using Paypal](#)

Paypal charges me a transaction fee for every payment I receive. I require that this be paid in addition to the amount of your bill / deposit. There are no hidden charges in this fee. To accept a credit card payment from you, I am asking you to add to your amount, the exact amount I am charged by Paypal.

The information on website will explain how to add the credit card transaction fee to your payment . The transaction fee for each payment is .30 (30 US cents) plus 2.9% of the total amount.

For example, for a \$100.00 USD payment, the amount you need to pay is:  $100 + (100 * .029) + .3 = 100 + 2.9 + .3 = 103.2$ . Therefore, the amount you must pay is **\$103.20**. The transaction fee in this case is \$3.20.
